

COVIU

Bespoke Video Conferencing For Integrators

Invented By

Dr Silvia Pfeiffer, CEO

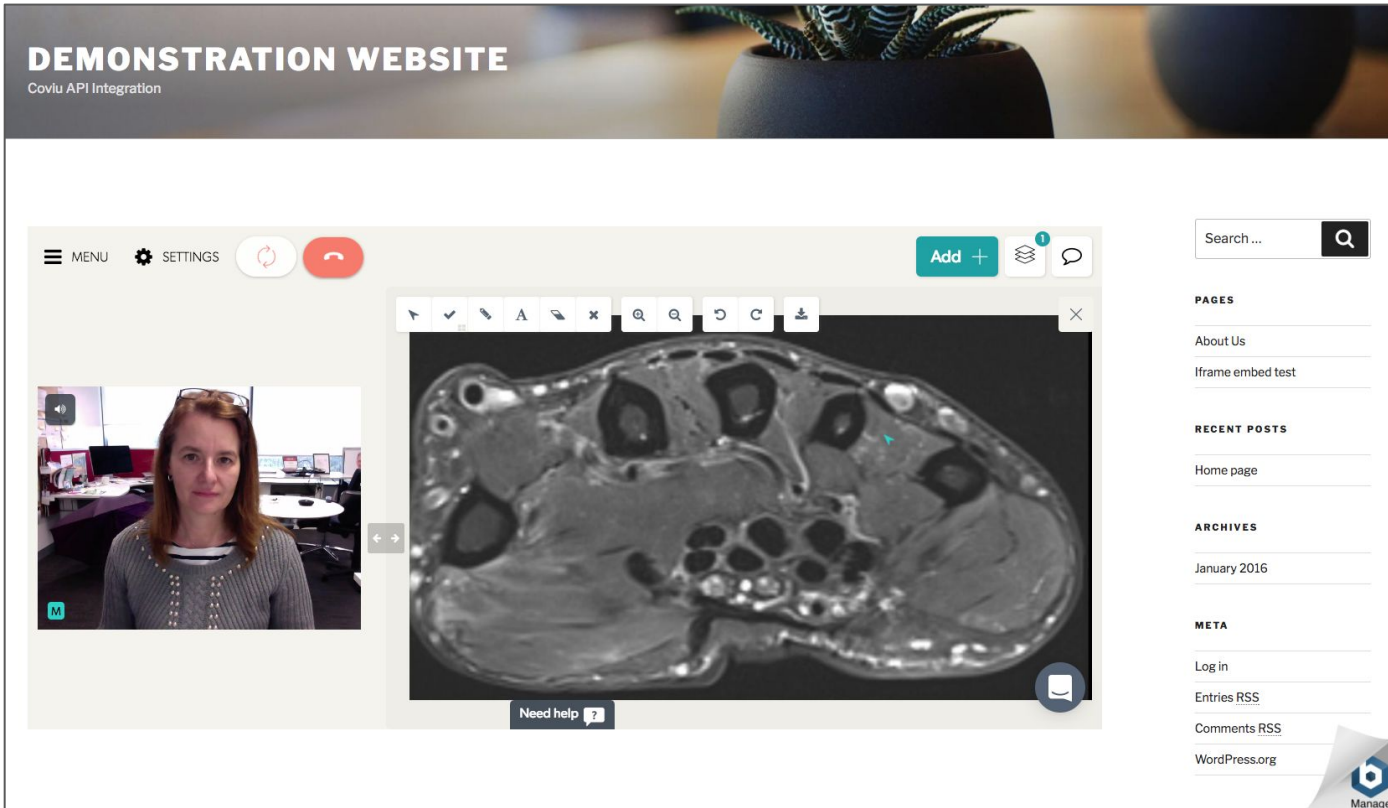

6th April 2017

The Core of Coviu: Rich Video Rooms

- WebRTC video conferencing
- Simple but rich user interface
- Customisation of user interface functionality & branding

Integrate into Your Application

- Coviu REST API
- Integrate into Web App with iFrame, mobile or Desktop app with SDK
- Fully encrypted calls & shared data

Functionality of the CoviU REST API

Cloud-based
Video consultations

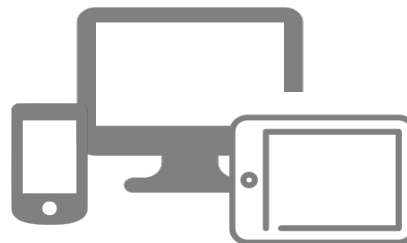

Appointment
bookings

Usage
Statistics

SDK libraries

Device agnostic

Usage based billing

Difference from Competitors

- **Fully browser based, instant call entry**
- High quality document, screen, desktop & document camera sharing
- **Works on your choice of backend system**
- Interactive tools on all content: annotations, signature, zoom
- **Guaranteed Australian data sovereignty**

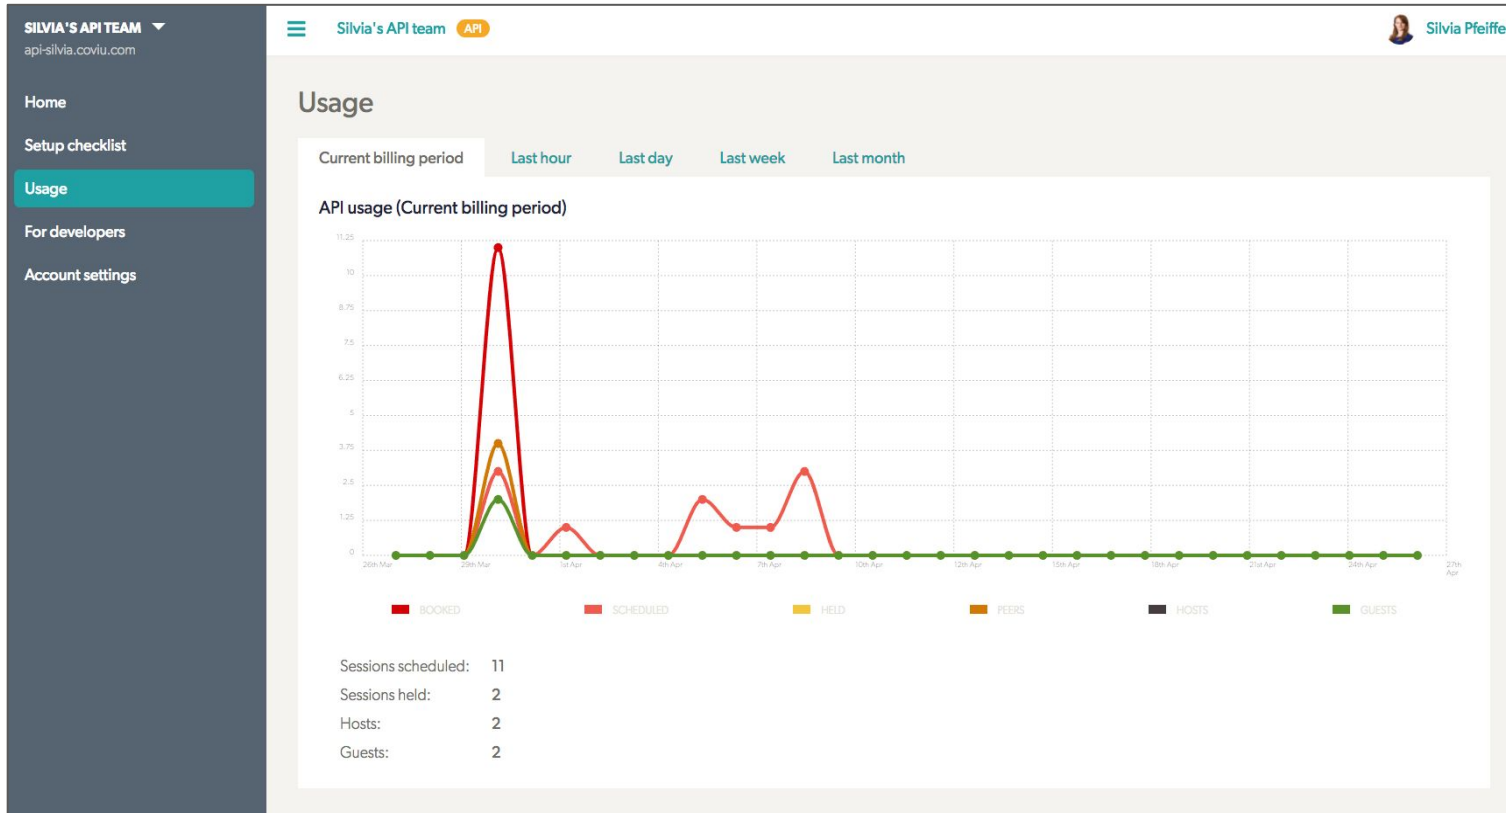

Systems Integrator Console

The screenshot displays the 'Systems Integrator Console' interface. On the left is a dark sidebar with navigation options: 'SILVIA'S API TEAM' (with a dropdown arrow and 'api-silvia.coviu.com' below), 'Home', 'Setup checklist' (highlighted in teal), 'Usage', 'For developers', and 'Account settings'. The main content area has a header with a hamburger menu, 'Silvia's API team' (with an 'API' badge), and a user profile for 'Silvia Pfeiffer'. Below the header is a 'Developer Checklist' section containing five items, each with a green checkmark: 1. 'Successfully activate your API account' (Your account has been successfully activated.); 2. 'Create an API key' (You have successfully created an API key.); 3. 'Connect to the Coviu API' (You have successfully connected to the Coviu API.); 4. 'Schedule a test session' (You have successfully scheduled a session.); 5. 'Join a test call' (You have successfully completed a Coviu call.). At the bottom of the checklist is a blue 'Integration successful!' message: 'Congratulations! You have successfully scheduled and conducted a Coviu call using your application key.'

- Manage developer team
- Integration checklist;
Help center
- Server infrastructure
provided

Usage based charging

- Period based usage statistics
- \$2 per call base price; volume discounts
- Charging of held calls only

Opportunity for Integrators & Resellers

- Face-to-face consultation needs in healthcare, education, legal, government

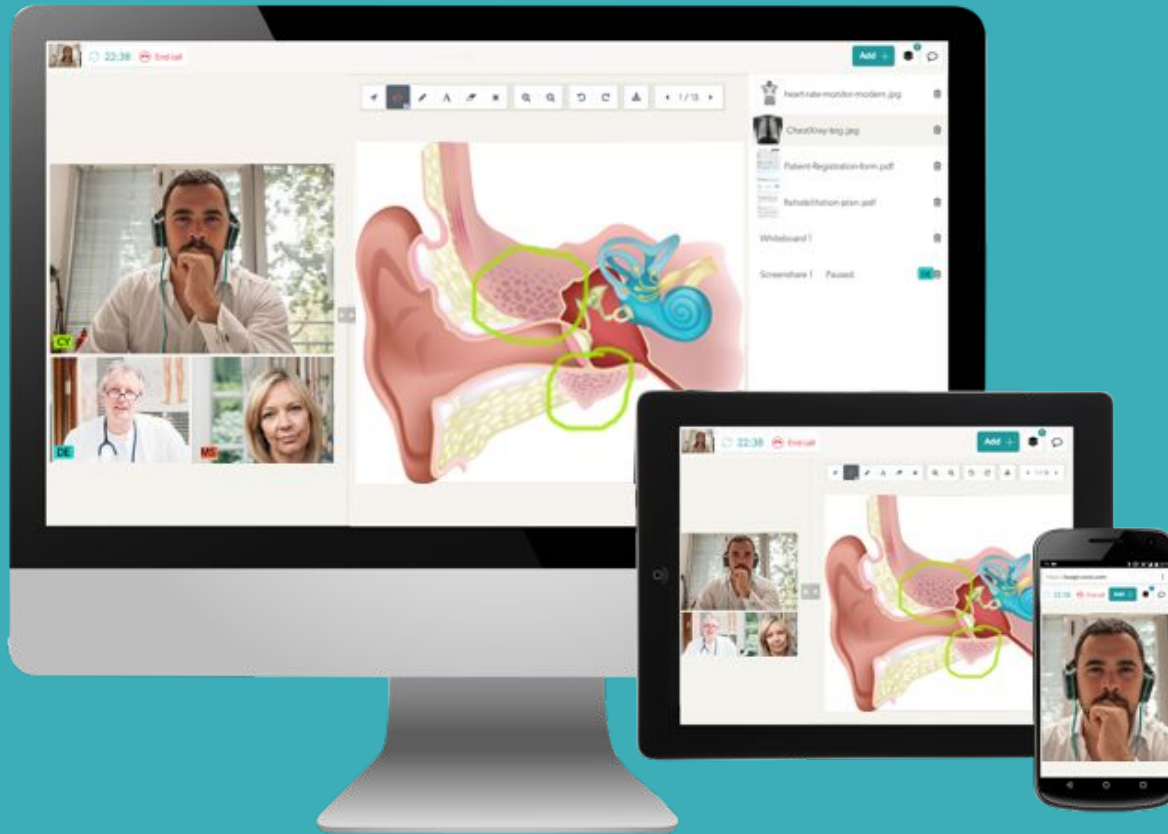

- Resell Coviu as part of your solution
- Integrate Coviu into your customer projects

- For example, as part of a larger project
100 monthly calls, Coviu price \$200 a month –
part of a 2 year project for \$100K – Coviu cost: \$4,800

Together we can transform the way human advice is delivered
